

## Garage Gear

BY MIKE McNESSOR

### Ball o' shine

The Flitz X-Large Buff Ball is seven inches in diameter and four inches wide, making it twice the width of the company's Buff 'N Polish Ball. The Buff Ball is made of the same high quality Italian viscose material as the Buff 'N Polish Ball, and is perfect for use on large flat surfaces, or when polishing diamond plate, as well as trailers, and trucks. Flitz Polishing Balls will not overheat or leave burn marks.

Cost: \$36.95.

### Little big lift

EBM Design, Inc.'s new EZ Car Lift is a low-rise, low-profile lift that can raise a 4,400-pound car a full 26 inches off the ground using an electric hand drill for power, giving the amateur mechanic or weekend racer plenty of comfortable work space.

Available in both steel and aluminum, the lift has a total weight of less than 164 pounds, with the heaviest section weighing in at only 61 pounds. Portable and easy to use, the EZ Car Lift is perfect for group, team or club ownership. Cost: \$2,295.

### Better bead maker

Among the improvements over the previous model, the Millermatic 252 all-in-one MIG welder has a spot/delay function that ensures consistency during repetitive tack welding, an Auto Gun Detect feature that allows for easier switching between steel and aluminum applications, as well as a patented EZ Change cylinder rack that allows users to roll, rather than lift, heavy gas cylinders into position. Cost: \$2,428.

### Clearly contained

Preferred Products Design's Motor Inn Enclosure is a fully sealed, climate-controlled, transparent protective showcase for your car. It's ideal for home garages, warehouses, barns and storage buildings, and will protect your vehicle from dust, mold and mildew, corrosion, insects, rodents, birds and accidental garage damage. The Motor Inn Enclosure is available in 10 x 20 feet as well as custom sizes. Cost: \$14,000 and up.

### Tic toc to go

Formotion's Flat Mount clock can be attached using either an ultra-thin 3M sticky disk or by fastening the mounting base plate onto any flat surface. The clock is inset into the 316 L stainless steel base, and can be easily removed to reset the time or change the battery. The entire assembly is just .37 inches high by 1.86 inches in diameter and features a classic, easy-to-read clock face measuring 1.42 inches. Cost: \$39.95.
